## Update on Baby Gus (4/3/24)

We took a big step in a positive direction yesterday!

After 77 days of being intubated, Gus was successfully extubated. In its place he's using a RAM cannula for support.

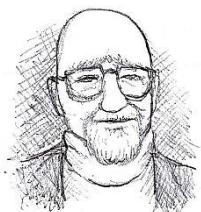

Our amazing team of practitioners, nurses, and RTs got us to this point, and we're grateful for them. He's doing well after a busy day. Hoping for a peaceful night. We're praying he continues to grow his respiratory capacity to the point where he can breathe on his own. God is good and he has done so much for us.

*Psalm 66:20 - "Blessed be God, Who has not turned away my prayer, nor His mercy from me!"*
